**Concept**
Backzoid restore true game. Play with your friends in the real world, using new facilities of modern technologies.

Gameplay

- Game starts, when players put the life-chips on top of Backzoid car. Until then engine cant be started.

- Your main goal knock down life-chips of other players and run over them
- You got only one life-chip for the game, but you can run over repair kit to get extra life
- Last Backzoid car that still can move become a winner.

Control
- We use tank-like control system. You have right and left engine.
- From your phone, you can set direction and capacity of each engine.
- When you put up your fingers from screen Backzoid car stops.

Healthcare
Digital game, that not impact on your eyesight.
